

Cormorant – 4 Days Itinerary

A beautiful brand new catamaran owned by a Galapagos family and run and administrated by a local company with a reputation for excellent service. Very spacious cabins, all with a private balcony with a Jacuzzi, huge sun deck – it offers all the amenities of a larger boat whilst still preserving the relaxed exclusivity of a smaller vessel. This is a great short itinerary with a great selection of Galapagos wildlife and including the beautiful island of Espanola.

Numerous Sea Lions are seen here, plus hundreds of Marine Iguanas basking on the rocks. Espanola's Marine Iguanas are unlike other Galapagos Marine Iguanas thanks to their bright colouring, and the Lava Lizards are distinctive too. Espanola is home to thousands of nesting seabirds all year, including Blue-footed Boobies, Nazca Boobies and Frigatebirds. Between late March and early December the Waved Albatross, perhaps the most spectacular of Galapagos birds, returns to Espanola by the thousands to perform their amazing mating dance and produce the next generation. Almost the entire population breeds on this island during this time, and they spend the rest of the year at sea.
