

Galaxy 5 days A

Galaxy is a beautiful motor yacht, launched in 2007, excellent crew, good food and very spacious and comfortable interiors. Run by a local company with a very good reputation and has first rate naturalists on board it has been one of our favourite yachts in recent years. The yacht is relatively fast, which means less time navigating than on slower yachts. The cabins are all very spacious with comfortable lower beds and outside views, very good value for the quality of service and comfort afforded.

This 5-day itinerary is excellent visiting a great selection of islands including the beautiful Espanola – and is particularly good when the Waved Albatross are on Espanola between April and December and has some great snorkelling.

Day 1 San Cristobal

Arrival at the airport in Galapagos.

San Cristobal - Isla Lobos A perfect place to swim with playful Sea Lions and snorkel. This basalt island outcropping lives up to its name of "Sea Lion Island". As well as the Sea Lion colony on the beach it is also a nesting place for Blue-footed Boobies.

Activities: Hike (0.5 mi / 0.8 km), dinghy ride, snorkelling

Difficulty: Short but difficult walk.

Type of Landing: Dry landing

Highlights & Animals: Sea lion colony, shore birds, seasonal nesting Frigatebirds, Darwin finches. Snorkelling: Sea lions, fish.

Day 2

Espanola (Hood) This island is one of the highlights of any visit to Galapagos. Espanola is the southernmost island in the Galapagos, and is also one of the oldest. Numerous Sea Lions are seen here, plus hundreds of Marine Iguanas basking on the rocks. Espanola's Marine Iguanas are unlike other Galapagos Marine Iguanas thanks to their bright colouring. Espanola is home to thousands of nesting seabirds all year, including Blue-footed Boobies, Nazca Boobies and Frigatebirds.

Between late March and December the Waved Albatross, perhaps the most spectacular of Galapagos birds, returns to Espanola by the thousands to perform their amazing mating dance and produce the next generation. Almost the entire population breeds on this island during this time, and they spend the rest of the year at sea.

Punta Suárez Regarding the amount of wildlife, this one of the best trails in the whole islands. Despite the difficult terrain, the walk is an absolute marvel, as from the beginning to the end you will see large quantities of Sea Lions, Marine Iguanas, Blue-footed and Nazca boobies, gulls, Galapagos Hawks and during most of the year, Waved Albatross. There are spectacular views of flying birds from the cliffs.

Activities: Hike (1.9 mi / 3 km)

Difficulty: Difficult, rocky terrain.

Type of Landing: Dry Landing

Highlights & Animals: Española Mockingbird, Nazca Boobies, Waved Albatross, Red-billed tropicbirds, lava lizards, Galapagos Hawk, Blue-footed Boobies, blow hole, amazing landscape.

Gardner Bay This beautiful bay is nestled between Gardner islet and the beautiful coral sand beach in Española. You will visit a spectacular white sand beach, home to one of the largest Sea Lion colonies in the islands, where you can also see endemic Española Mockingbirds and with some luck, Galapagos Hawks.

Activities: Snorkelling and kayaking. Short hike along the beach (0.6 mi / 1km)
Difficulty: Easy
Type of Landing: Wet landing
Highlights & Animals: White sandy beach, Sea Lion colony, Mockingbirds Galapagos Hawks. Snorkelling: colourful fish, Sea Lion nursery.

Day 3

Floreana - Post Office Bay The famous Post Office Bay is where people leave their mail to be picked up and delivered by others in the “post office” barrel—a time-honoured tradition begun by whalers more than two hundreds of years ago.

Activities: Short hike (less than 0.2 mi / 0.3km), lava tunnel & snorkelling
Difficulty: Easy
Type of Landing: Wet landing
Highlights: Barrel Post Office, lava tunnel inland (difficult access), nice sandy beach

Floreana – Devil's Crown One of the highlights of this area is snorkelling at Devil's Crown, a partially submerged crater teeming with Parrotfish, Wrasse, Surgeonfish, and Damselfish among many other varieties of tropical fish.

Activities: Snorkel
Difficulty: Moderate. Strong current
Type of Landing: No landing

Highlights and Animals: One of the best snorkelling sites in the islands, but a strong current can be a challenge for very inexperienced divers. Sea Lions, Reef Sharks, Sea Turtles, Hammerhead Sharks, Rays, many fish.

Floreana - Punta Cormorant At Punta Cormorant you will walk on an olivine beach (a mineral known for its olive-green quality, that is found in meteorites, the moon and mars as well as on earth), visit a large lagoon where Great Flamingos sometimes nest, and walk over to Flour Beach, a beautiful white sandy beach to look for Green Sea Turtle nests.

Activities: Hike (1.2 mi/2km)

Difficulty: Easy

Type of Landing: Wet landing

Highlights and Animals: An easy walk along a coastal lagoon where Flamingos are often found, along with Stilts and Ducks. White sand beach.

Day 4

Santa Fe This is the oldest of the Galapagos islands. Its paradisiacal bay offers great possibilities to swim and snorkel in crystal clear waters. A hike inland offers a great chance to see a species of Land Iguanas (*Conolophus pallidus*) which is endemic to Santa Fe Island. In the same area you'll also see a forest of giant prickly pear cactus. After your visit you can swim and snorkel both inside and outside the bay.

Activities: Hiking, Snorkel

Difficulty: Moderate

Type of Landing: Wet landing

Highlights: Santa Fe Land Iguanas, Sea Lion colony, Galapagos hawks, Mockingbirds, giant prickly pear cactus (the tallest in Galapagos). Snorkel: Sea Lions, Reef Sharks, Parrotfish, Surgeonfish.

South Plaza

This is the best island for observing Land Iguanas, along with Cactus Finches, Tropic Birds and Sea Lions. One of your first stops will be through a small “forest” of Prickly Pear Cactus. The walk along the sea cliffs is a wonderful experience, with Galapagos Shearwaters and Red-billed Tropicbirds gliding by. Towards the end of the walk is a bachelor Sea Lion colony, with a battle-scared collection of old bulls in various states of recuperation or total retirement!

Activities: Hike (1.5 mi / 2 ½ km)

Difficulty: Moderate

Type of Landing: Dry landing

Highlights & Animals: Land Iguanas, Sea Lion colony, Galapagos Shearwaters, Swallow-tailed Gulls, Nazca Boobies, amazing landscape with cliffs

Day 5

Santa Cruz - Charles Darwin Research Station The Charles Darwin Research Station offers a great chance to learn about the work being done to conserve and protect the islands wildlife. For some visitors (depending on the time of year) this is the only time to see Giant Tortoises and certainly the closest range opportunity. It is also a great chance to see the Tortoise Rearing Centre.

Activities: Walking

Difficulty: Easy

Type of Landing: Dry landing

Highlights & Animals: Giant Tortoises, Land and Marine Iguanas, Mockingbirds, Darwin Finches.

After this final visit, you will be transferred to Baltra's airport for your flight back to the mainland, or you could continue your Galapagos adventure with a stay in one of the inhabited islands.

Please note: *Itineraries are unlikely to change significantly but are subject to change. Weather, wildlife breeding, instructions from the Galapagos National Park, specific abilities and interests of passengers as well as operational matters may cause your guide or captain to change the times or nature of your visits. Your guide will always endeavour to have the best itinerary for you within these constraints.*
