

Galaxy II – 4 days E

A brand new catamaran, which was launched in January 2015. Built by the operators of the Galaxy who we have worked with for many years and who offer a great level of service and comfort for the price. With 8 double cabins, 4 on the upper deck and 4 on the main deck each with private bathrooms, cold/hot water and air conditioned. Built using sound ecological and sustainable tourism principals, the yacht has ample social areas with a library, DVD service, dining room, bar and sundeck with kayaks on board for the use of guests in permitted sites.

This 4 day itinerary includes the beautiful island of Espanola and Floreana including one of the top snorkel sites in Galapagos as well as visits in Santa Cruz and San Cristobal Islands.

Day 1

Santa Cruz - Charles Darwin Research Station

The Charles Darwin Research Station offers a great chance to learn about the work being done to conserve and protect the islands wildlife. For some visitors (depending on the time of year) this is the only time to see Giant Tortoises and certainly the closest range opportunity. It is also a great chance to see the Tortoise Rearing Centre.

Activities: Walking

Difficulty: Easy

Type of Landing: Dry landing

Highlights & Animals: Giant Tortoises, Land and Marine Iguanas, Mockingbirds, Darwin Finches.

Day 2

Floreana - Punta Cormorant

At Punta Cormorant you will walk on an olivine beach (a mineral known for its olive-green quality, that is found in meteorites, the moon and mars as well as on earth), visit a large lagoon where Greater Flamingos sometimes nest, and walk over to Flour Beach, a beautiful white sandy beach to look for Green Sea Turtle nests.

Activities: Hike (1.2 mi/2km)

Difficulty: Easy

Type of Landing: Wet landing

Highlights and Animals: An easy walk along a coastal lagoon where Flamingos are often found, along with Stilts and Ducks. White sand beach.

Floreana – Devil’s Crown

One of the highlights of this area is snorkelling at Devil’s Crown, a partially submerged crater teeming with Parrotfish, Wrasse, Surgeonfish, and Damselfish among many other varieties of tropical fish.

Activities: Snorkel

Difficulty: Moderate. Strong current

Type of Landing: No landing

Highlights and Animals: One of the best snorkelling sites in the islands, but a strong current can be a challenge for very inexperienced divers. Sea Lions, Reef Sharks, Sea Turtles, Hammerhead Sharks, Rays, many fish.

Floreana - Post Office Bay

The famous Post Office Bay is where people leave their mail to be picked up and delivered by others in the “post office” barrel—a time-honoured tradition begun by whalers more than two hundreds of years ago.

Activities: Short hike (less than 0.2 mi / 0.3km), lava tunnel & snorkelling

Difficulty: Easy

Type of Landing: Wet landing

Highlights: Barrel Post Office, lava tunnel inland (difficult access), nice sandy beach

Day 3

Española (Hood)

This island is one of the highlights of any visit to Galapagos. Española is the southernmost island in the Galapagos, and is also one of the oldest. Numerous Sea Lions are seen here, plus hundreds of Marine Iguanas basking on the rocks. Española's Marine Iguanas are unlike other Galapagos Marine Iguanas thanks to their bright colouring.

Española is home to thousands of nesting seabirds all year, including Blue-footed Boobies, Nazca Boobies and Frigatebirds. Between late March and December the Waved Albatross, perhaps the most spectacular of Galapagos birds, returns to Española by the thousands to perform their amazing mating dance and produce the next generation. Almost the entire population breeds on this island during this time, and they spend the rest of the year at sea.

Punta Suárez

Regarding the amount of wildlife, this one of the best trails in the whole islands. Despite the difficult terrain, the walk is an absolute marvel, as from the beginning to the end you will see large quantities of Sea Lions, Marine Iguanas, Blue-footed and Nazca Boobies, gulls, Galapagos Hawks and during most of the year, Waved Albatross. There are spectacular views of flying birds from the cliffs.

Activities: Hike (1.9 mi / 3 km)

Difficulty: Difficult, rocky terrain.

Type of Landing: Dry Landing

Highlights & Animals: Española Mockingbird, Nazca Boobies, Waved Albatross, Red-billed Tropicbirds, lava lizards, Galapagos Hawk, Blue-footed Boobies, blow hole, amazing landscape.

Gardner Bay

This beautiful bay is nestled between Gardner islet and the beautiful coral sand beach in Española. You will visit a spectacular white sand beach, home to one of the largest Sea Lion colonies in the islands, where you can also see endemic Española Mockingbirds and with some luck, Galapagos Hawks.

Activities: Snorkelling and kayaking. Short hike along the beach (0.6 mi / 1km)
Difficulty: Easy
Type of Landing: Wet landing
Highlights & Animals: White sandy beach, Sea Lion colony, Mockingbirds, Galapagos Hawks. Snorkelling: colourful fish, Sea Lion nursery.

Day 4

San Cristobal – Puerto Baquerizo and the Interpretation Centre The easternmost island in the archipelago, this island has a small town, Puerto Baquerizo Moreno and is home to a fantastic interpretation centre, which provides an excellent overview to the islands human history and the conservation work being done to protect it.

Activities: Easy hike (0.2 mi / 0.3 km)

Difficulty: Easy

Type of Landing: Dry landing

Highlights & Animals: Interesting information centre focused on the human history of the islands. Around the centre, Finches, Mockingbirds and endemic plants

From here you return to the airport for your flight back to mainland Ecuador or you can extend your Galapagos trip with a stay on one of the inhabited islands.

Please note: *Itineraries are unlikely to change significantly but are subject to change. Weather, wildlife breeding, instructions from the Galapagos National Park, specific abilities and interests of passengers as well as operational matters may cause your guide or captain to change the times or nature of your visits. Your guide will always endeavor to have the best itinerary for you within these constraints.*
