

Angelito – 4 Days

Loving run by a local Galapagos family, Angelito I is an excellent option within her price category. Tourist superior, but first class service. Very charming, and whilst not the sleekest of yachts, the Angelito has been designed to have very light interiors, with large picture windows and lots of space on deck for relaxing both in the sun and in the shade. All the cabins are on the main deck with lower birth beds and good sized windows and a nice airy feel. The yacht owners are very hands on in looking after her, the crew is really excellent and they only work with only two or three naturalists all of whom have very extensive experience in the Galapagos. This 4 day itinerary visits Española one of the most beautiful islands in the archipelago, together with Santa Fe and South Plaza giving a good selection of wildlife.

Activities: Hike (0.9 mi / 1 ½ km)

Difficulty: Easy /moderate

Type of Landing:

Highlights & Animals: Giant Tortoises, Scalesia Forest, Darwin finches, Warblers, Flycatchers.

Day 2 Española (Hood)

This island is one of the highlights of any visit to Galapagos. Española is the southernmost island in the Galapagos, and is also one of the oldest. Numerous Sea Lions are seen here, plus hundreds of Marine Iguanas basking on the rocks. Española's Marine Iguanas are unlike other Galapagos Marine Iguanas thanks to their bright colouring.

Española is home to thousands of nesting seabirds all year, including Blue-footed Boobies, Nazca Boobies and Frigatebirds. Between late March and December, the Waved Albatross, perhaps the most spectacular of Galapagos birds, returns to Española by the thousands to perform their amazing mating dance and produce the next generation. Almost the entire population breeds on this island during this time, and they spend the rest of the year at sea.

Gardner Bay

This beautiful bay is nestled between Gardner islet and the beautiful coral sand beach in Española. You will visit a spectacular white sand beach, home to one of the largest Sea Lion colonies in the islands, where you can also see endemic Española Mockingbirds and with some luck, Galapagos Hawks.

Activities: Snorkelling and kayaking. Short hike along the beach (0.6 mi / 1km)

Difficulty: Easy

Type of Landing: Wet landing

Highlights & Animals: White sandy beach, Sea Lion colony, Mockingbirds, Galapagos Hawks. Snorkelling: colourful fish, Sea Lion nursery.

Punta Suárez

Regarding the amount of wildlife, this one of the best trails in the whole islands. Despite the difficult terrain, the walk is an absolute marvel, as from the beginning to the end you will see large quantities of Sea Lions, Marine Iguanas, Blue-footed and Nazca Boobies, gulls, Galapagos Hawks and during most of the year, Waved Albatross. There are spectacular views of flying birds from the cliffs.

Activities: Hike (1.2 mi / 2 km)

Difficulty: Difficult, rocky terrain.

Type of Landing: Dry Landing

Highlights & Animals: Española Mockingbird, Nazca Boobies, Waved Albatross, Red-billed Tropicbirds, lava lizards, Galapagos Hawk, Blue-footed Boobies, blow hole, amazing landscape.

Day 3

Santa Fe

This is the oldest of the Galapagos islands. Its paradisiacal bay offers great possibilities to swim and snorkel in crystal clear waters. A hike inland offers a great chance to see a species of Land Iguanas (*Conolophus pallidus*) which is endemic to Santa Fe Island. In the same area you'll also see a forest of Giant Prickly Pear Cactus. After your visit you can swim and snorkel inside the bay.

Activities: Hiking, Snorkelling

Difficulty: Moderate

Type of Landing: Wet landing

Highlights: Santa Fe Land Iguanas, Sea Lion colony, Galapagos Hawks, Mockingbirds, giant prickly pear cactus (the tallest in Galapagos). Snorkel: Sea Lions, Reef Sharks, Parrotfish, Surgeonfish.

South Plaza

This is the best island for observing Land Iguanas, along with Cactus Finches, Tropicbirds and Sea Lions. One of your first stops will be through a small “forest” of Prickly Pear Cactus. The walk along the sea cliffs is a wonderful experience, with Galapagos Shearwaters and Red-billed Tropicbirds gliding by. Towards the end of the walk is a bachelor Sea Lion colony, with a battle-scared collection of old bulls in various states of recuperation or total retirement!

Activities: Hike (0.8 mi / 1.2 km)

Difficulty: Moderate

Type of Landing: Dry landing

Highlights & Animals: Land Iguanas, Sea Lion colony, Galapagos Shearwaters, Swallow-tailed Gulls, Nazca Boobies, amazing landscape with cliffs

Day 4

You will have an early start this morning, and the visit will be a relatively short one as the yacht must then return to Baltra where the cruise will end in time for guests to take their connecting flight back to mainland Ecuador.

Santa Cruz - Black Turtle Cove (Caleta Tortuga Negra)

A beautiful mangrove lagoon on the north shore of Santa Cruz Island. The yacht anchors just outside the cove and you will enter on a dinghy, paddling through the calm waters of the lagoon, which is a resting site for Green Sea Turtles. A wonderfully quiet journey, through a beautiful and unique habitat. With good luck as well as Marine Turtles you will see different types of Sharks and schools of Golden and Eagle Rays swimming just below the surface, whilst Yellow Warblers sing from above.

Activities: Boat tour in a lagoon, wildlife observation.

Difficulty: Easy

Type of Landing: No landing

Highlights & Animals: Lagoon surrounded by mangroves. Sharks, Rays, Sea Turtles, Pelicans and Blue-footed Boobies

After this final visit, you will be transferred to Baltra's airport for your flight back to the mainland, or you could continue your Galapagos adventure with a stay in one of the inhabited islands.

Please note: *Itineraries are unlikely to change significantly but are subject to change. Weather, wildlife breeding, instructions from the Galapagos National Park, specific abilities and interests of passengers as well as operational matters may cause your guide or captain to change the times or nature of your visits. Your guide will always endeavour to have the best itinerary for you within these constraints.*
