

Passion 5 Day Program

A five-star luxury yacht, with a panoramic sky lounge and ample deck space, which gives plenty of room to relax and enjoy the views. Launched in 2015, this yacht still retains some original features like its teak wood decks and rose-coloured marble bathrooms and is designed with environmentally friendly cruising in mind. Run by Andando Tours, a local company with a great reputation for quality of service, friendly helpful crews, great food and first-class naturalist guides. The yacht, which is very spacious (with 6 state cabins for 12 guests) also has kayaks on board which can be used in certain sites whilst other guests are snorkelling. An excellent itinerary, including both Genovesa and Española, two of the most beautiful islands, with a superb mix of visitor sites and Galapagos wildlife, fascinating geological scenery and pristine white beaches.

The eastern itinerary follows the red line shown on the map.

Day 1 **Baltra** Arrival at the airport in Galapagos.

Santa Cruz - Black Turtle Cove (Caleta Tortuga Negra) A beautiful mangrove lagoon on the north shore of Santa Cruz Island. The yacht anchors just outside the cove and you will enter on a dinghy, paddling through the calm waters of the lagoon, which is a resting site for Green Sea Turtles. A wonderfully quiet journey, through a beautiful and unique habitat. With good luck as well as Marine Turtles you will see different types of Sharks and schools of Golden and Eagle Rays swimming just below the surface, whilst Yellow Warblers sing from above.

Activities: Boat tour in a lagoon, wildlife observation.

Difficulty: Easy

Type of Landing: No landing

Highlights & Animals: Lagoon surrounded by mangroves. Sharks, Rays, Sea Turtles, Pelicans and Blue-footed Boobies

Day 2 **Genovesa (Tower)** A highlight of any visit to the Galapagos, a truly beautiful island thanks to the richness of its birdlife. Located in the northeast portion of Galapagos, the island is an outpost for many seabirds (as is Española in the South). Interestingly there are no land reptiles here and only very small Marine Iguanas, due to direction of ocean currents which apparently would not have carried terrestrial animals here. You will visit the following sites.

Genovesa - Darwin Bay This bay is actually the caldera of an extinct, partially eroded volcano, with the surrounding cliffs forming the inner portion of the rim. You will land on a coral beach, and will immediately be struck by the amount of birdlife. The trail is loaded with Great Frigatebirds (mating season from February to May), Red-footed Boobies nesting in the mangroves, Swallow-tailed Gulls, Lava Gulls, Yellow-crowned Night Herons. Your trail takes you past a beautiful tide pool area where Herons try to catch small fish.

Activities: Hike (0.9 mi / 1 ½ km), snorkelling, kayaking & dinghy ride

Difficulty: Easy/moderate

Type of Landing: Wet landing.

Highlights: Nazca Boobies, Red-footed Boobies, Great Frigatebirds, Swallow-tailed Gulls, mangroves, coral pebbles beach. Snorkelling: rays, colourful reef fish and Hammerhead Sharks

El Barranco or Prince Philip's Steps

The tour begins with a great dinghy (small dinghy) ride along the base of the cliffs where you see Red-billed Tropicbirds trying to make a precise landing in their nest. Squadrons of Frigatebirds are seen flying back and forth, whilst Red-footed Boobies perch on branches of Palo Santo trees which seemingly grow out of the cliffs. Once you arrive on land and climb to the cliff-top, you enter an area where nesting Nazca Boobies and Great Frigatebirds are found. It is also a great place to see Galapagos Doves and Vampire Finches (Sharp-beaked Ground Finches) ...ask your guide for the full story on the name! You will also see a large colony of Storm Petrels which attracts Short-eared Owls, often observed stalking at these small sea birds, even during the day.

Activities: Hike (0.9 mi / 1 ½ km)

Difficulty: Moderate

Type of Landing: Dry, difficult landing

Highlights: Red-footed Boobies, Great Frigatebirds, Short-eared Owls, Storm Petrels, Galapagos Doves, Darwin Finches.

Day 3 Bartolome

Home to one of the most iconic scenery shots of Galapagos, this small island is located off the eastern shore of Santiago Island. The striking volcanic landscape looks almost lunar and provides a great introduction to the volcanic origins of the islands, with spatter cones and cinder cones some of which are eroded shaping striking formations like Pinnacle Rock. On the way to the top of Bartolome you will observe good examples of pioneering plants, including some beautiful strands of lava cactus. At sea level, this is a great place for swimming and snorkelling, if you are lucky with Galapagos Penguins.

Activities: Dinghy ride & snorkelling. Hike uphill (0.5 mi / 0.8 km)
Difficulty: Moderate/ difficult. Walk up to the top of volcano 114 meters, 375 wooden steps.
Type of Landing: Dry and wet landing
Highlights & Animals: Pinnacle rock, panoramic view, moonlike landscape, Penguins, pioneer plants, lava cactus. Snorkelling: Penguins, Reef Sharks, Rays, great colourful fish.

Chinese Hat or Sombrero Chino

Located just off the southeast tip of James Island, this island owes its name to its shape. A truly beautiful island, surrounded by crystal clear waters, this is a great location for sea lions. Perhaps more than any other site, this islet gives you a sense of Galapagos volcanic origins as the beautiful white beach gives way to an almost primeval landscape of volcanic rubble.

Activities: Hiking (0.3 mi. / 0.4km) Snorkelling & Kayaking.

Difficulty: Easy/Moderate

Type of Landing: Wet landing

Highlights & Animals: Walk along the shore visiting a small colony of Galapagos Sea Lions. Penguins. Snorkel: Penguins, Reef sharks, Parrotfish, Puffers.

Day 4 Rabida

A red sandy beach with Sea Lions and nesting Brown Pelicans, which some afford a rare glimpse of chick feeding. There is a short walk inland which offers great views of the beach and lagoon. Years ago Flamingos were regularly seen at the salty lagoon, but nowadays this is a rare sight. Geologically, Rabida is said to have the most diversified volcanic rocks of all the islands. It also provides a great opportunity to snorkel with Sea Lions and has a great diversity of near-shore and pelagic fish.

Activities: Wet landing. Hiking 0.5 mi. Kayaking and Snorkelling

Difficulty: Easy

Type of Landing: Wet landing

Highlights & Animals: Red sand beach, coastal lagoon, Galapagos Sea Lions, Seasonal colony of Brown Pelicans, Galapagos Hawk. Snorkel: Sea Lions, Butterflyfish, Parrotfish, Eels.

Santa Cruz – Cerro Dragon or Dragon Hill

After a dry landing, the walk will take you along the edge of a salt water lagoon behind the beach where you can often see Flamingos, Pintail Ducks, Common Stilts and other bird species. A short walk inland, offers a great view of the bay and a nesting site for Land Iguanas, many of which were repatriated back to Cerro Dragon by the Charles Darwin Research Station, after their near-extinction due to feral dogs and cats.

Activities: Hiking (1 mi / 1.6 km) Snorkelling

Difficulty: Moderate

Type of Landing: Dry landing

Highlights & Animals: Coastal lagoon with variety of water birds: Herons, Stilts, Pintail Ducks, Oystercatchers, Flamingos. Giant Cactus, Land Iguanas, Darwin Finches, Mockingbirds. Snorkel: Parrotfish, Puffers, Snappers, Sea Turtles.

Day 5

You will have an early start this morning, and the visit will be a relatively short one as the yacht must then return to Baltra where the cruise will end in time for guests to take their connecting flight back to mainland Ecuador.

Santa Cruz – Highlands

The highlands of Santa Cruz are home to fascinating geological features, like lava tubes and the twin sinkhole craters of Los Gemelos, which are home to some 300

different fern species as well as a forest of Scalesias, a relative of sunflowers, they are also one of the best places to see Giant Tortoises in the wild.

Activities: Walk

Difficulty: Moderate(depends how far the guide takes you into the tunnel)

Type of Landing: Dry landing

Highlights & Animals: Santa Cruz Giant Tortoises, Scalesia Forest, Darwin finches, Warblers, Flycatchers.

After this final visit, you will be transferred to Baltra's airport for your flight back to the mainland, or you could continue your Galapagos adventure with a stay in one of the inhabited islands.

Please note: Itineraries are unlikely to change significantly but are subject to change. Weather, wildlife breeding, instructions from the Galapagos National Park, specific abilities and interests of passengers as well as operational matters may cause your guide or captain to change the times or nature of your visits. Your guide will always endeavour to have the best itinerary for you within these constraints.

"All the flights and flight-inclusive holidays in this document are financially protected by the ATOL scheme. When you pay you will be supplied with an ATOL Certificate. Please ask for it and check to ensure that everything you booked (flights, hotels and other services) is listed on it.
