

Seaman Journey 8 Days C1

M/C Galapagos Seaman Journey is a first-class catamaran that began sailing the Galapagos Islands in January 2008. She is a first-class expeditionary catamaran offering superior comfort, size, style, and stability. The catamaran large, comfortable double cabins with outside views, private bathrooms, hot water, a locker and closet. The spacious rooms each have full air-conditioning and individual climate control.

On-board you'll also find a comfortable dining room, two bars, a lounge, library, TV/DVD, stereo, first aid, an ice maker, observation deck, a water purifier and spacious sundeck with chairs for relaxing in the sea breeze.

Day 1 Arrive Baltra

You arrive to the airport where you will be met by your guide and the crew from the Seaman Journey and your Galapagos experience will begin.

North Seymour

A great variety of Galapagos wildlife is provided in the loop trail on this small island. The highlight of your visit here will be the largest colony of Magnificent and Great Frigatebirds in the Galapagos as well as a colony of Blue-footed Boobies. In addition, there are Sea lions, Marine Iguanas, Lava Lizards, Swallow-tailed Gulls, and a few secretive, but very large Land Iguanas.

Activities: Hiking (1.2 mi / 2 km), Snorkelling & dinghy ride

Difficulty: Moderate/difficult

Type of Landing: Dry landing

Highlights & Animals: Land & Marine Iguanas, Frigatebirds, Blue-footed Boobies, Sea Lions, sea birds. Snorkelling: Rays, Reef Shark, fish, Garden Eels

Day 2 Genovesa (Tower)

A highlight of any visit to the Galapagos, a truly beautiful island thanks to the richness of its birdlife. Located in the northeast portion of Galapagos, the island is an outpost for many seabirds (as is Española in the South). Interestingly there are no land reptiles here and only very small Marine Iguanas, due to direction of ocean currents which apparently would not have carried terrestrial animals here. You will visit the following sites.

Genovesa - Darwin Bay This bay is actually the caldera of an extinct, partially eroded volcano, with the surrounding cliffs forming the inner portion of the rim. You will land on a coral beach, and will immediately be struck by the amount of birdlife. The trail is loaded with Great Frigatebirds (mating season from February to May), Red-footed Boobies nesting in the mangroves, Swallow-tailed Gulls, Lava Gulls, Yellow-crowned Night Herons. Your trail takes you past a beautiful tide pool area where herons try to catch small fish.

Activities: Hike (0.9 mi / 1 ½ km), snorkelling, kayaking & dinghy ride

Difficulty: Easy/moderate

Type of Landing: Wet landing.

Highlights: Nazca Boobies, Red-footed Boobies, Great Frigatebirds, Swallow-tailed Gulls, mangroves, coral pebbles beach. Snorkelling: rays, colourful reef fish and Hammerhead Sharks

El Barranco or Prince Philip's Steps The tour begins with a great dinghy ride along the base of the cliffs where you see Red-billed Tropicbirds trying to make a precise landing in their nest. Squadrons of Frigatebirds are seen flying back and forth, whilst Red-footed Boobies perch on branches of Palo Santo trees which seemingly grow out of the cliffs. Once you arrive on land and climb to the cliff-top, you enter an area where nesting Nazca Boobies and Great Frigatebirds are found. It is also a great place to see Galapagos Doves and Vampire Finches (Sharp-beaked Ground Finches) ...ask your guide for the full story on the name! You will also see a large colony of Storm Petrels which attracts Short-eared Owls, often observed stalking at these small sea birds, even during the day.

Activities: Hike (0.9 mi / 1 ½ km)

Difficulty: Moderate

Type of Landing: Dry, difficult landing

Highlights: Red-footed Boobies, Great Frigatebirds, Short-eared Owls, Storm Petrels, Galapagos Doves, Darwin Finches.

Day 3 South Plaza is the best island for observing Land Iguanas, along with Cactus Finches, Tropicbirds and Sea Lions. One of your first stops will be through a small "forest" of Prickly Pear Cactus. The walk along the sea cliffs is a wonderful experience, with Galapagos Shearwaters and Red-billed Tropicbirds gliding by. Towards the end of the walk is a bachelor Sea Lion colony, with a battle-scared collection of old bulls in various states of recuperation or total retirement!

Activities: Hike (0.8 mi / 1.2 km)

Difficulty: Moderate

Type of Landing: Dry landing

Highlights & Animals: Land Iguanas, Sea Lion colony, Galapagos Shearwaters, Swallow-tailed Gulls, Nazca Boobies, amazing landscape with cliffs

Santa Fe

This is the oldest of the Galapagos islands. Its paradisiacal bay offers great possibilities to swim and snorkel in crystal clear waters. A hike inland offers a great chance to see a species of Land Iguanas (*Conolophus pallidus*) which is endemic to Santa Fe Island. In the same area, you'll also see a forest of Giant Prickly Pear Cactus. After your visit, you can swim and snorkel both inside and outside the bay.

Activities: Hiking, Snorkel

Difficulty: Moderate

Type of Landing: Wet landing

Highlights: Santa Fe Land Iguanas, Sea Lion colony, Galapagos Hawks, Mockingbirds, Giant Prickly Pear Cactus (the tallest in Galapagos). Snorkel: Sea Lions, Reef Sharks, Parrotfish, Surgeonfish.

Day 4

San Cristobal – Galapaguera- Cerro Colorado

Located in the south east of San Cristobal, this area is home to giant tortoise confinement corral, where tortoises are kept in near-natural conditions. The site has been developed to help restore the Giant Tortoise population of the Island (which was badly impacted by whalers in past centuries) and provides a great chance to see these magnificent giants up close in a natural habitat with paths covering an area of 900 meters. You will also have great chances of seeing the San Cristobal Mockingbird, Woodpecker Finch and Large and Small Tree Finches here. It is also one of the few places that you can see the delicate *Calandrinia galapagosa*, a critically endangered plant endemic to San Cristobal.

Activities: Short hike (less than 0.6 mi / 1 km).

Difficulty: Easy

Type of Landing: No landing

Highlights: Dry vegetation of lowlands. Giant Tortoises, San Cristobal Mockingbird, Darwin Finches

San Cristobal – Puerto Baquerizo and the Interpretation Centre

The easternmost island in the archipelago, this island has a small town, Puerto Baquerizo Moreno and is home to a fantastic interpretation centre, which provides an excellent overview to the islands human history and the conservation work being done to protect it.

Activities: Easy hike (0.2 mi / 0.3 km)

Difficulty: Easy

Type of Landing: Dry landing

Highlights & Animals: Interesting information centre focused on the human history of the islands. Around the centre, Finches, Mockingbirds and endemic plants

Day 5 - San Cristobal – Cerro Brujo This striking eroded tuff cone was one of the first sites visited by Charles Darwin. It has a beautiful coral sand beach where you can take a leisurely walk (depending on time of year) visited by Brown Pelicans, Blue-footed Boobies, and Swallow-tailed Gulls as well as Marine Iguanas and sea lions. The beauty of this dramatic area can also be explored from the dinghy, exploring caves and looking for sea birds.

Activities: Hike along the beach (1 mi / 1.6 km), dinghy ride, snorkelling & kayaking
Difficulty: Easy walk along the beach
Type of Landing: Wet landing
Highlights & Animals: Beautiful rock formations, sea lions, shore birds, land birds: finches and mockingbirds, snorkelling: sea lions, nice tropical fish, anemones.

San Cristobal – Galapaguera Natural

After landing on a beautiful soft coral beach, which is a nesting site for marine turtles, the trail leads you inland through a tropical dry forest to look for the San Cristobal Giant Tortoises, a species unique to this island. Along the way, you will see Darwin's finches, mockingbirds, Yellow Warblers and flycatchers.

Activities: Hike inland (up to 2.5mi / 4 km) or along the beach, dinghy ride, snorkelling
Difficulty: Moderate
Type of Landing: Wet landing
Highlights & Animals: Giant Tortoises, Shore birds, land birds: finches and mockingbirds, snorkelling: colourful reef fish

Day 6

Española (Hood)

This island is one of the highlights of any visit to Galapagos. Española is the southernmost island in the Galapagos, and is also one of the oldest. Numerous Sea Lions are seen here, plus hundreds of Marine Iguanas basking on the rocks. Española's Marine Iguanas are unlike other Galapagos Marine Iguanas thanks to their bright colouring. Española is home to thousands of nesting seabirds all year, including Blue-footed Boobies, Nazca Boobies and Frigatebirds. Between late March and December, the Waved Albatross, perhaps the most spectacular of Galapagos birds, returns to Española by the thousands to perform their amazing mating dance and produce the next generation. Almost the entire population breeds on this island during this time, and they spend the rest of the year at sea.

Gardner Bay This beautiful bay is nestled between Gardner islet and the beautiful coral sand beach in Española. You will visit a spectacular white sand beach, home to one of the largest Sea Lion colonies in the islands, where you can also see endemic Española Mockingbirds and with some luck, Galapagos Hawks.

Activities: Snorkelling and kayaking. Short hike along the beach (0.6 mi / 1km)

Difficulty: Easy

Type of Landing: Wet landing

Highlights & Animals: White sandy beach, Sea Lion colony, Mockingbirds Galapagos Hawks. Snorkelling: colourful fish, Sea Lion nursery.

Punta Suárez

Regarding the amount of wildlife, this one of the best trails in the whole islands. Despite the difficult terrain, the walk is an absolute marvel, as from the beginning to the end you will see large quantities of Sea Lions, Marine Iguanas, Blue-footed and Nazca Boobies, gulls, Galapagos Hawks and during most of the year, Waved Albatross. There are spectacular views of flying birds from the cliffs.

Activities: Hike (1.2 mi / 2 km)

Difficulty: Difficult, rocky terrain.

Type of Landing: Dry Landing

Highlights & Animals: Española Mockingbird, Nazca Boobies, Waved Albatross, Red-billed Tropicbirds, lava lizards, Galapagos Hawk, Blue-footed Boobies, blow hole, amazing landscape.

Day 7 Floreana - Punta Cormorant

At Punta Cormorant you will walk on an olivine beach (a mineral known for its olive-green quality, that is found in meteorites, the moon and mars as well as on earth), visit a large lagoon where Greater Flamingos sometimes nest, and walk over to Flour Beach, a beautiful white sandy beach to look for Green Sea Turtle nests.

Activities: Hike (0.7 mi/ 1.2km)

Difficulty: Easy

Type of Landing: Wet landing

Highlights and Animals: An easy walk along a coastal lagoon where Flamingos are often found, along with Stilts and Ducks. White sand beach.

Floreana - Post Office Bay

The famous Post Office Bay is where people leave their mail to be picked up and delivered by others in the “post office” barrel—a time-honoured tradition begun by whalers more than two hundred years ago.

Activities: Short hike (less than 0.2 mi / 0.3km), lava tunnel & snorkelling

Difficulty: Easy

Type of Landing: Wet landing

Highlights: Barrel Post Office, lava tunnel inland (difficult access), nice sandy beach

Day 8

You will have an early start this morning, and the visit will be a relatively short one as the yacht must then return to Baltra where the cruise will end in time for guests to take their connecting flight back to mainland Ecuador.

Santa Cruz - Charles Darwin Research Station

The Charles Darwin Research Station offers a great chance to learn about the work being done to conserve and protect the islands wildlife. For some visitors (depending on the time of year) this is the only time to see Giant Tortoises and certainly the closest range opportunity. It is also a great chance to see the Tortoise Rearing Centre.

Activities: Walking

Difficulty: Easy

Type of Landing: Dry landing

Highlights & Animals: Giant Tortoises, Land and Marine Iguanas, Mockingbirds, Darwin Finches.

After this final visit, you will be transferred to Baltra's airport for your flight back to the mainland, or you could continue your Galapagos adventure with a stay in one of the inhabited islands.

Please note: Itineraries are unlikely to change significantly but are subject to change. Weather, wildlife breeding, instructions from the Galapagos National Park, specific abilities and interests of passengers as well as operational matters may cause your guide or captain to change the times or nature of your visits. Your guide will always endeavour to have the best itinerary for you within these constraints.
