

Natural Paradise 8 Days – Central and Northern

The Natural Paradise, constructed in 2016, is a modern luxury yacht with nine comfortable cabins and very good onboard facilities for up to a maximum of 16 guests. A very good 8 day itinerary with a great mixture of visitor sites in the Central, and Eastern part of the archipelago with a great mix of wildlife and scenery taking you up North to the beautiful island of Genovesa one of the highlight islands of Galapagos.

Activities: Snorkelling & dinghy ride

Difficulty: Easy

Type of Landing: No landing

Highlights: Deep water snorkelling: Sharks, tropical fish, turtles, Manta Rays, hammerhead shark, spectacular rock formations, sea birds: Blue-footed Boobies, Nazca Boobies & frigatebirds.

San Cristobal – Cerro Brujo

This striking eroded tuff cone was one of the first sites visited by Charles Darwin. It has a beautiful coral sand beach where you can take a leisurely walk (depending on time of year) visited by Brown Pelicans, Blue-footed Boobies, and Swallow-tailed Gulls as well as Marine Iguanas and sea lions. The beauty of this dramatic area can also be explored from the dinghy, exploring caves and looking for sea birds.

Activities: Hike along the beach (1 mi / 1.6 km), dinghy ride, snorkelling & kayaking

Difficulty: Easy walk along the beach

Type of Landing: Wet landing

Highlights & Animals: Beautiful rock formations, sea lions, shore birds, land birds: finches and mockingbirds, snorkelling: sea lions, nice tropical fish, anemones.

Day 2 South Plaza

This is the best island for observing Land Iguanas, along with Cactus Finches, tropicbirds and sea lions. One of your first stops will be through a small “forest” of Prickly Pear Cactus. The walk along the sea cliffs is a wonderful experience, with Galapagos Shearwaters and Red-billed Tropicbirds gliding by. Towards the end of the walk is a bachelor sea lion colony, with a battle-scarred collection of old bulls in various states of recuperation or total retirement!

Activities: Hike (0.8 mi / 1.2 km)

Difficulty: Moderate

Type of Landing: Dry landing

Highlights & Animals: Land Iguanas, Sea lion colony, Galapagos Shearwaters, Swallow-tailed Gulls, Nazca Boobies, amazing landscape with cliffs

Santa Cruz - Black Turtle Cove (Caleta Tortuga Negra)

A beautiful mangrove lagoon on the north shore of Santa Cruz Island. The yacht anchors just outside the cove and you will enter on a dinghy, paddling through the calm waters of the lagoon, which is a resting site for Green Sea Turtles. A wonderfully quiet journey, through a beautiful and unique habitat. With good luck as well as Marine Turtles you will see different types of sharks and schools of Golden and Eagle Rays swimming just below the surface, whilst Yellow Warblers sing from above.

Activities: Boat tour in a lagoon, wildlife observation.

Difficulty: Easy

Type of Landing: No landing

Highlights & Animals: Lagoon surrounded by mangroves. Sharks, rays, sea turtles, pelicans and Blue-footed Boobies

Day 3 Rabida

A red sandy beach with Sea lions and nesting Brown Pelicans, which sometimes afford a rare glimpse of chick feeding. There is a short walk inland which offers great views of the beach and lagoon. Years ago Flamingos were regularly seen at the salty lagoon, but nowadays this is a rare sight. Geologically, Rabida is said to have the most diversified volcanic rocks of all the islands. It also provides a great opportunity to snorkel with Sea lions and has a great diversity of near-shore and pelagic fish.

Activities: Wet landing. Hiking (0.5 mi / 0.8 km) Kayaking and Snorkelling

Difficulty: Easy

Type of Landing: Wet landing

Highlights & Animals: Red sand beach, coastal lagoon, Galapagos Sea Lions, Seasonal colony of Brown Pelicans, Galapagos Hawk. Snorkel: Sea lions, Butterflyfish, Parrotfish, Eels.

Bartolome

Home to one of the most iconic scenery shots of Galapagos, this small island is located off the eastern shore of Santiago Island. The striking volcanic landscape looks almost lunar and provides a great introduction to the volcanic origins of the islands, with spatter cones and cinder cones some of which are eroded, shaping striking formations like Pinnacle Rock. On the way to the top of Bartolome you will observe good examples of pioneer plants, including some beautiful strands of lava cactus. At sea level, this is a great place for swimming and snorkelling, if you are lucky with Galapagos Penguins.

Activities: Dinghy ride & snorkelling. Hike uphill (0.5 mi / 0.8 km)
Difficulty: Moderate/ difficult. Walk up to the top of volcano 114 meters, 375 wooden steps.

Type of Landing: Dry and wet landing

Highlights & Animals: Pinnacle rock, panoramic view, moonlike landscape, penguins, pioneer plants, lava cactus. Snorkelling: Penguins, Reef Sharks, Rays, great colourful fish.

Day 4 Santiago – Sullivan Bay

This site is of great geological interest and is located southeast of Santiago Island. Sullivan Bay offers a rare look at a recently formed lava field. Located on the eastern coast of James Island, just across from Bartolome, this lava field is thought to have been created in eruptions that took place around 1890.

Activities: Hike (0.9 mi / 1.5 km) swimming and snorkelling

Difficulty: Moderate.

Type of Landing: Dry landing at the rocky shore and a wet landing at the white sand beach

Highlights & Animals: Pahoehoe lava flows, which has hardened in accordion-style formation. Small glass-like bubbles of lava can be found, called “hornitos”. Penguins in the coastline.

Santa Cruz – Cerro Dragon or Dragon Hill After a dry landing, the walk will take you along the edge of a salt water lagoon behind the beach where you can often see flamingos, Pintail Ducks, stilts and other bird species. A short walk inland, offers a great view of the bay and a nesting site for Land Iguanas, many of which were repatriated back to Cerro Dragon by the Charles Darwin Research Station, after their near-extinction due to feral dogs and cats.

Activities: Hiking (1 mi./ 1.6km) Snorkelling

Difficulty: Moderate

Type of Landing: Dry landing

Highlights & Animals: Coastal lagoon with variety of water birds: Herons, Stilts, Pintail Ducks, Oystercatchers, Flamingos. Giant Cactus, Land Iguanas, Darwin Finches, Mockingbirds. Snorkel: Parrotfish, Puffers, Snappers, Sea Turtles.

Day 5 Santa Cruz – Highlands

The highlands of Santa Cruz are home to fascinating geological features, like lava tubes and the twin sinkhole craters of Los Gemelos, which are home to some 300 different fern species as well as a forest of Scalesias, a relative of sunflowers. This is an excellent area to look for some elusive endemics like the Woodpecker Finch (one of only a few bird species in the world to use tools), Small Tree Finch, Vegetarian Finch and Galapagos Rail. The highlands of Santa Cruz are one of the best places to see Giant Tortoises in the wild.

Activities: Hike (0.9 mi / 1 ½ km)

Difficulty: Easy /moderate

Type of Landing:

Highlights & Animals: Pit craters, Scalesia Forest, Darwin finches, Warblers, Flycatchers.

Santa Cruz - Charles Darwin Research Station

The Charles Darwin Research Station offers a great chance to learn about the work being done to conserve and protect the islands wildlife. Another chance to see Giant Tortoises and certainly the closest range opportunity (for most people although with your first afternoon you would most likely have enjoyed lots of close encounters with them!). It is also a great chance to see the Tortoise Rearing Centre.

Activities: Walking (1.2 mi/2 km)

Difficulty: Easy

Type of Landing: Dry landing

Highlights & Animals: Giant Tortoises, Land and Marine Iguanas, Mockingbirds, Darwin Finches.

Day 6 Genovesa (Tower)

A highlight of any visit to the Galapagos, a truly beautiful island thanks to the richness of its birdlife. Located in the northeast portion of Galapagos, the island is an outpost for many seabirds (as is Española in the South). Interestingly there are no land reptiles here and only very small Marine Iguanas, due to direction of ocean currents which apparently would not have carried terrestrial animals here. You will visit the following sites.

El Barranco or Prince Philip's Steps

The tour begins with a great dinghy ride along the base of the cliffs where you see Red-billed Tropicbirds trying to make a precise landing in their nest. Squadrons of Frigatebirds are seen flying back and forth, whilst Red-footed Boobies perch on branches of Palo Santo trees which seemingly grow out of the cliffs. Once you arrive on land and climb to the cliff-top, you enter an area where nesting Nazca Boobies and Great Frigatebirds are found. It is also a great place to see Galapagos Doves and Vampire Finches (Sharp-beaked Ground finches) ...ask your guide for the full story on the name! You will also see a large colony of Storm Petrels which attracts Short-eared Owls, often observed stalking at these small sea birds.

Activities: Hike (0.9 mi / 1 ½ km)

Difficulty: Moderate

Type of Landing: Dry, difficult landing

Highlights: Red-footed Boobies, Great Frigatebirds, Short-eared Owls, Storm Petrels, Galapagos Doves, Darwin Finches.

Genovesa - Darwin Bay

This bay is actually the caldera of an extinct, partially eroded volcano, with the surrounding cliffs forming the inner portion of the rim. You will land on a coral beach, and will immediately be struck by the amount of birdlife. The trail is loaded with Great Frigatebirds (mating season from February to May), Red-footed Boobies nesting in the mangroves, Swallow-tailed Gulls, Lava Gulls, Yellow-crowned Night Herons. Your trail takes you past a beautiful tide pool area where herons try to catch small fish.

Activities: Hike (0.9 mi / 1 ½ km), snorkelling, kayaking & dinghy ride

Difficulty: Easy/moderate

Type of Landing: Wet landing.

Highlights: Nazca Boobies, Red- footed Boobies, Great Frigatebirds, Swallow-tailed Gulls, mangroves, coral pebbles beach. Snorkelling: rays, colourful reef fish and Hammerhead Sharks

Day 7 James (Santiago) – Playa Espumilla

This tawny beach is a favourite nesting ground of Green Sea Turtles. There is a trail going inland with some very large Palo Santo trees where a number of land birds can be seen, including the Galapagos Flycatcher, the Galapagos Dove, Darwin Finches and Galapagos Mockingbirds. The beautiful sandy beach is a great place to swim and has some great mangrove areas.

Activities: Hiking (1 mi / 1.6km), Snorkelling and swimming at the beach

Difficulty: Easy / Moderate

Type of Landing: Wet landing

Highlights: Lowland Forest, Galapagos Hawk, Darwin Finches. Snorkelling

OR alternatively James (Santiago) – Buccaneer Cove

This is the place where Darwin landed and built his base camp on his visit to James. It is a geological marvel since it offers wonderful scenery and chances to see both new and old ash formations. There is no landing site, so visit here can be only done either by dinghy or kayak. During the dinghy ride you might see Blue-footed Boobies, Brown Noddy, Galapagos Fur Seals and Swallow-tailed Gulls.

Activities: No landing. Boat tour along the coast. Kayaking and Snorkelling

Difficulty: Easy

Type of Landing: No landing

Highlights & Animals: Sea birds, scenery, snorkel, spectacular rock formations.

James Bay (Puerto Egas)

This was the island where Charles Darwin spent the majority of his land visits in Galapagos. At James Bay, the Fur Seal Grottos provide great chances to get close views of both Fur Seals and Galapagos Sea Lions in a series of rocky pools. This visit also provides some of the best opportunities for tide-pooling in the Galapagos, and chances to see shore birds such as Plovers, Sandpipers, Herons and Oystercatchers. The snorkel from the beach is excellent.

Activities: Snorkelling, hike (1.2 mi / 2 km)

Difficulty: Easy /moderate

Type of Landing: Wet landing

Highlights: Galapagos Fur Seals, Galapagos Sea lions, tidal pools and “grottos”, Galapagos Hawk, Oystercatchers, Marine Iguanas, finches. Snorkelling: Reef Sharks, Turtles, Rays, nice underwater formations.

Day 8 Santa Cruz - Bachas Beach

Your visit this morning will be shorter than other visits as most visitors will have to go from here to the airport for the flight back to the mainland.

A beautiful white sandy beach punctuated by lava formations. The wonderfully soft sand here makes it a favourite site for nesting Sea Turtles. Here you will also see White Mangroves, one of the four mangrove species found in the Galapagos. There is a small coastal lagoon behind the sand dunes where Flamingos, Stilts, Pintail ducks and other water birds are regularly seen.

Activities: Walking along the beach, swimming, snorkelling. **Difficulty:** Easy
Type of Landing: Wet landing
Highlights & Animals: World War II remnants, Sally Lightfoot Crabs, Hermit Crabs, Black-necked Stilts, Whimbrels, Flamingos, Sea Turtles

From here together with the rest of the group the yacht will return to Baltra airport where you will be taken by your guide to check in for your flight back to mainland Ecuador (or you could continue your adventure in the Galapagos staying on one of the inhabited islands!)

Please note: *Itineraries are unlikely to change significantly but are subject to change. Weather, wildlife breeding, instructions from the Galapagos National Park, specific abilities and interests of passengers as well as operational matters may cause your guide or captain to change the times or nature of your visits. Your guide will always endeavour to have the best itinerary for you within these constraints.*
